

Tutorial ISE Design Suite 14.7 Windows 10

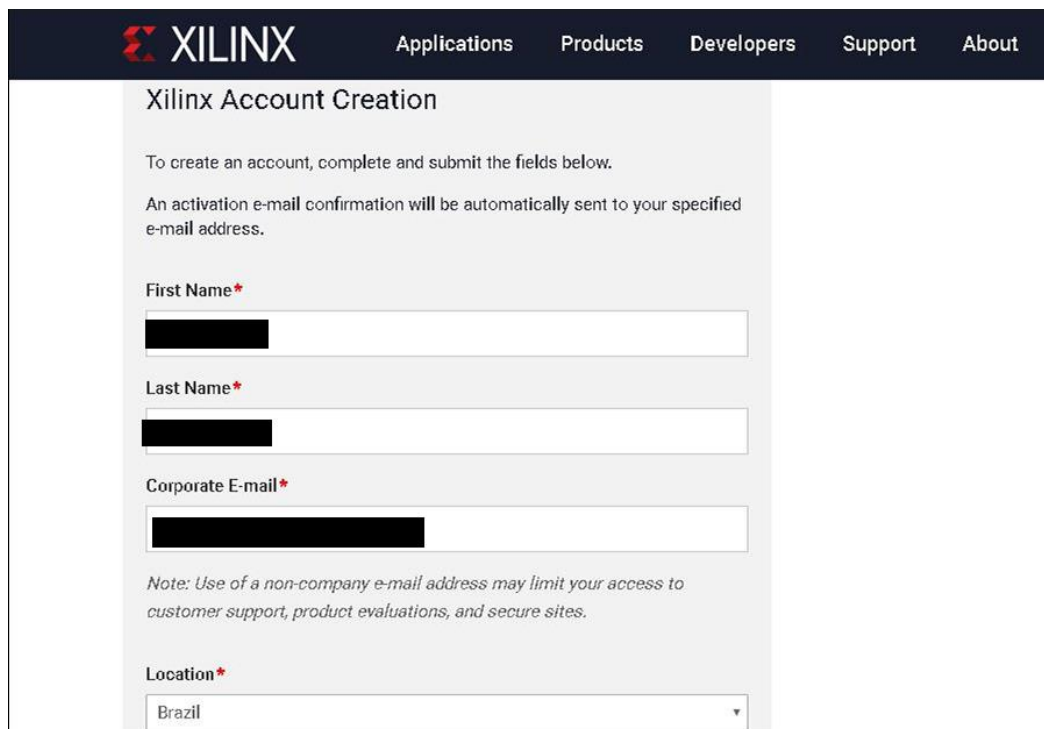

Eletrônica Digital I (E207)

Instituto Nacional de Telecomunicações - INATEL

Elaborado por Felipe Pereira Silveira

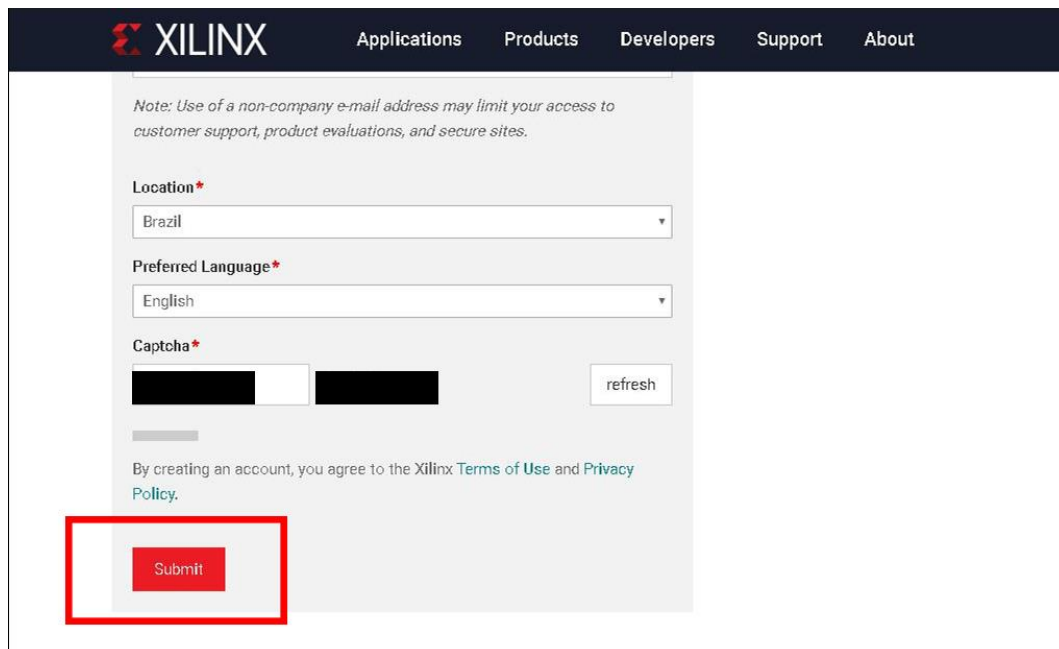

-2020-

1) Entre no link: <https://www.xilinx.com/registration/create-account.html>

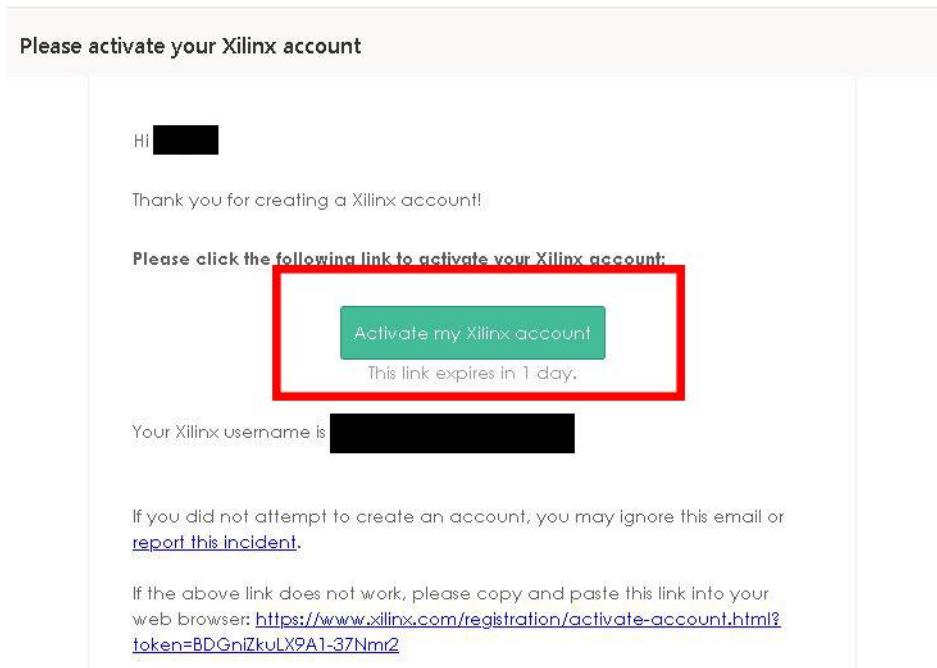

The image shows the 'Xilinx Account Creation' form. At the top is a dark blue navigation bar with the Xilinx logo and links for Applications, Products, Developers, Support, and About. The form itself is titled 'Xilinx Account Creation' and includes instructions: 'To create an account, complete and submit the fields below.' and 'An activation e-mail confirmation will be automatically sent to your specified e-mail address.' The form contains the following fields: 'First Name*' (text input), 'Last Name*' (text input), 'Corporate E-mail*' (text input), a note about non-company email addresses, 'Location*' (dropdown menu with 'Brazil' selected), and 'Preferred Language*' (dropdown menu with 'English' selected). A 'Submit' button is at the bottom, highlighted with a red rectangle.

2) Preencha com seus dados e, em seguida, clique em Submit.

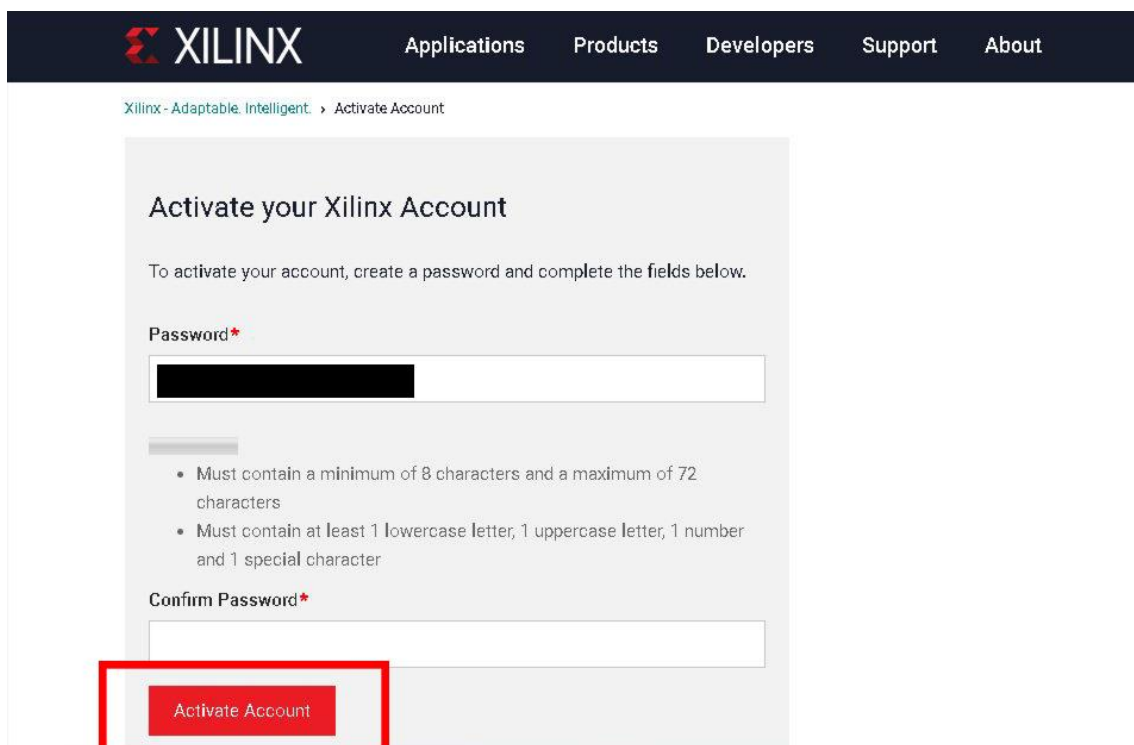

This image is a second view of the Xilinx Account Creation form, showing the 'Submit' button highlighted with a red rectangle. The form includes the same fields as the first image: 'First Name*', 'Last Name*', 'Corporate E-mail*', a note about non-company email addresses, 'Location*' (dropdown menu with 'Brazil' selected), 'Preferred Language*' (dropdown menu with 'English' selected), and a 'Submit' button. A 'refresh' button is also visible next to the captcha field.

3) Você receberá esse e-mail da Xilinx, clique em Activate my Xilinx account.

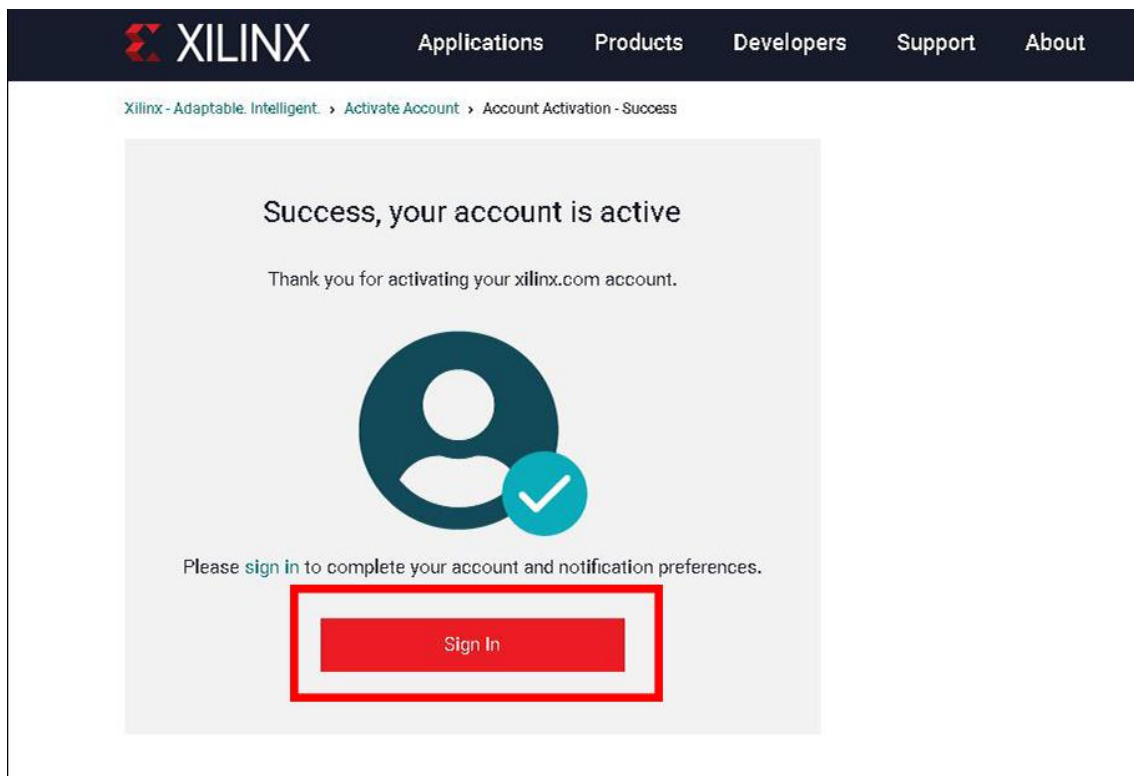

4) A janela a seguir será aberta em seu navegador, crie uma senha e clique em Activate Account.

IMPORTANTE: Sua senha precisa conter no mínimo 8 e no máximo 72 caracteres, sendo **OBRIGATÓRIO** o uso de 1 letra minúscula, 1 maiúscula, 1 número e 1 caractere especial.

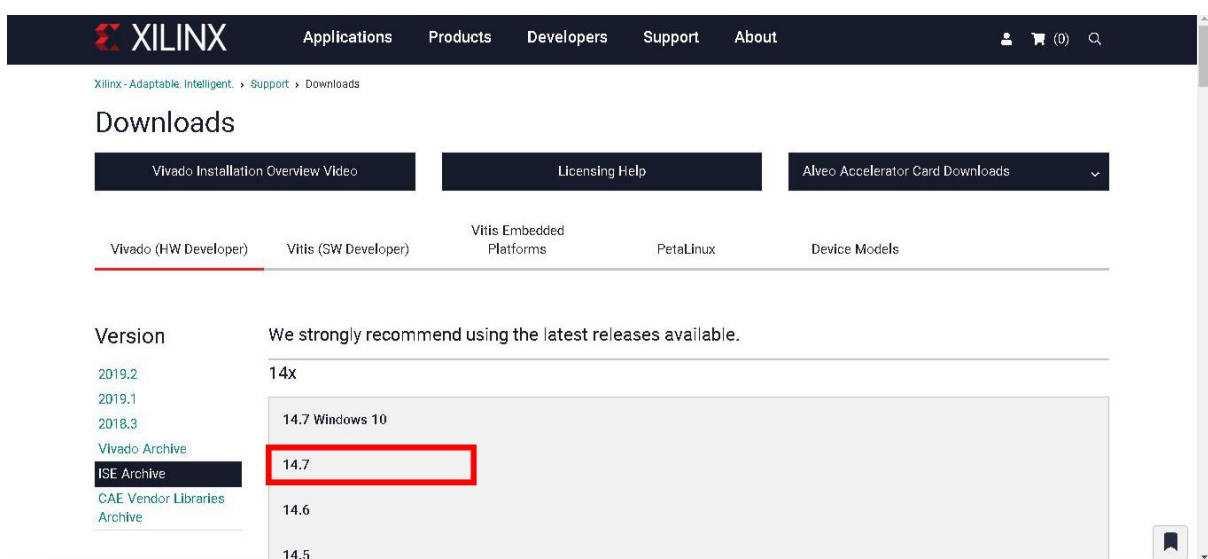

5) Logo após, sua conta estará ativada. Clique em Sign In para fazer Login.

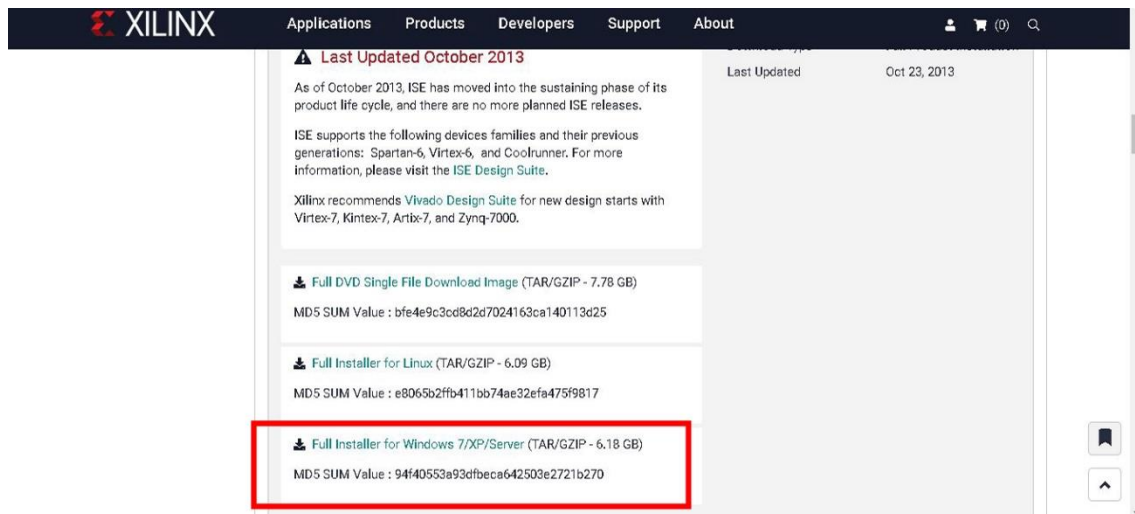

6) Entre no link abaixo e clique em 14.7. conforme mostra a figura:

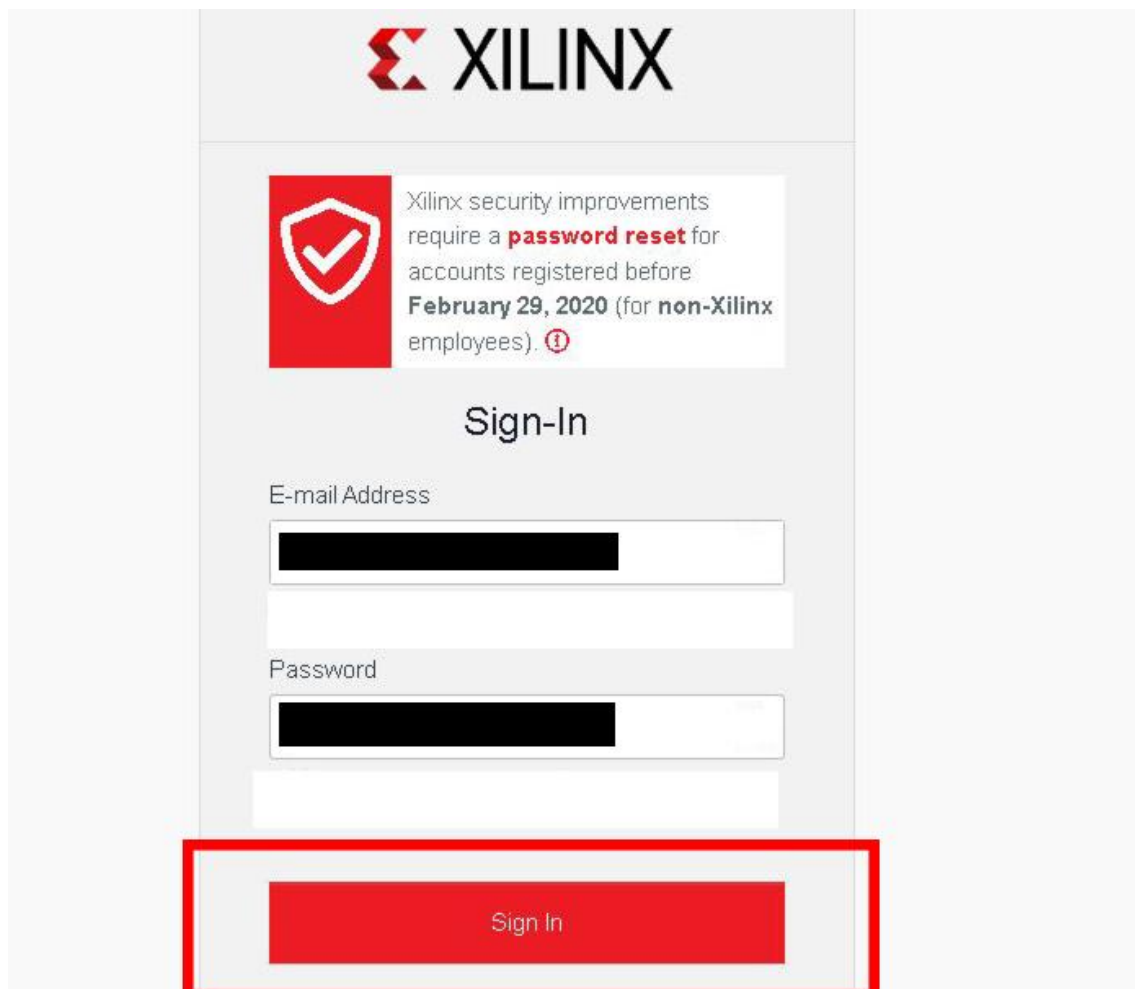

<https://www.xilinx.com/support/download/index.html/content/xilinx/en/downloadNav/vivado-design-tools/archive-ise.html>

7) Em seguida, clique na região mostrada na figura abaixo para baixar o ISE para Windows 10.

8) Entre com seu Login e senha.

9) Entre com seus dados após fazer Login.

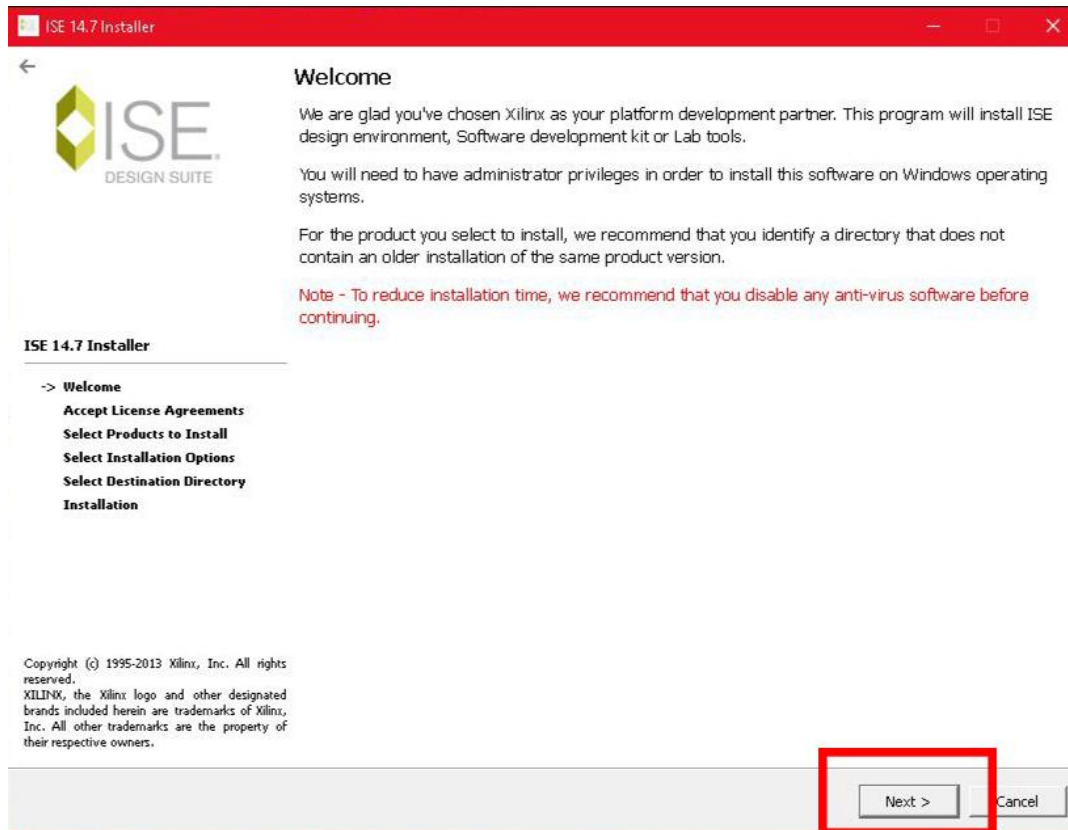

The screenshot shows the Xilinx website header with the logo and navigation links: Applications, Products, Developers, Support, and About. Below the header, the page title is "Download Center - Name and Address Verification". The main content area is titled "U.S. Government Export Approval" and contains two bullet points: "U.S. export regulations require that your First Name, Last Name, Company Name and Shipping Address be verified before Xilinx can fulfill your download request. [Please provide accurate and complete information.](#)" and "Addresses with Post Office Boxes and names/addresses with Non-Roman Characters with accents such as grave, tilde or colon [are not supported](#) by US export compliance systems." Below this, there are four input fields: "First Name*", "Last Name*", "Corporate E-mail*", and "Company Name*". The "Company Name*" field has a dropdown menu with "None" selected. A small note below the "Company Name*" field says "Please enter your company's name, or 'None' if not affiliated." There is a bookmark icon in the bottom right corner.

10) Clique em Download. Após isso, o download do ISE Design Suite 14.7 vai começar (Tamanho aproximado de download: 6,17 gb).

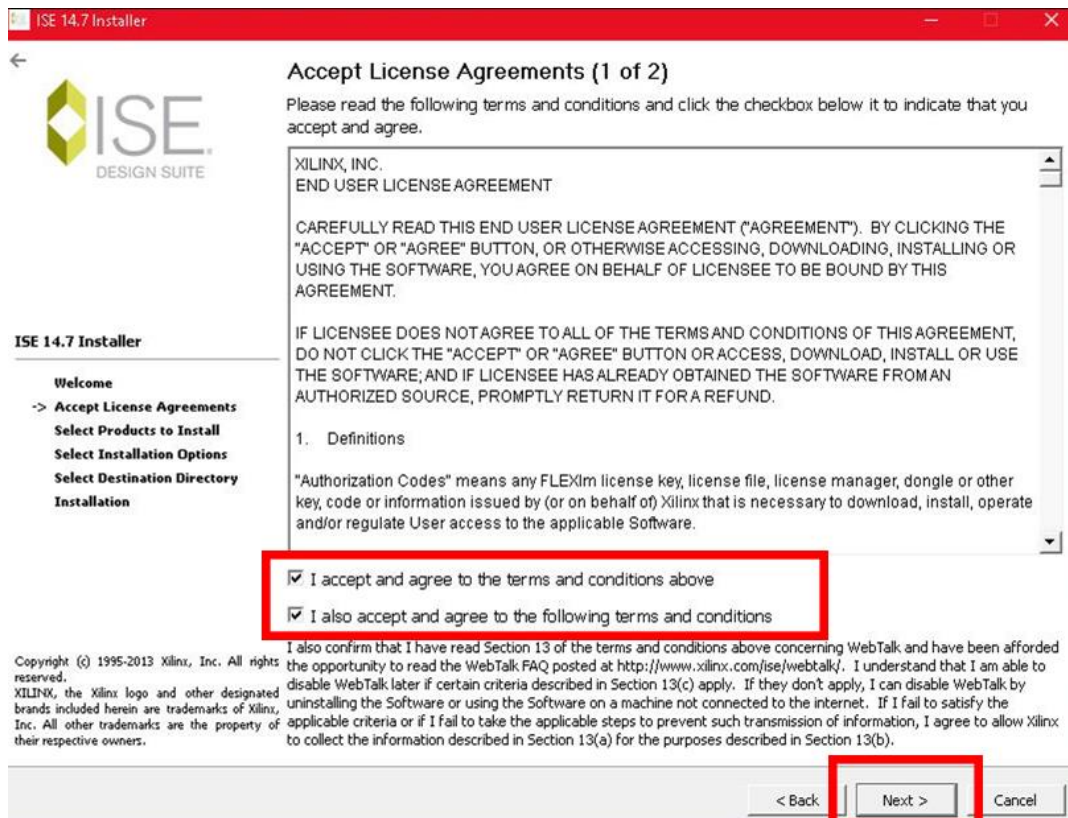

The screenshot shows the bottom section of the Xilinx website header with the logo and navigation links: Applications, Products, Developers, Support, and About. Below the header, the page title is "Download Center - Name and Address Verification". The main content area is titled "U.S. Government Export Approval" and contains two bullet points: "U.S. export regulations require that your First Name, Last Name, Company Name and Shipping Address be verified before Xilinx can fulfill your download request. [Please provide accurate and complete information.](#)" and "Addresses with Post Office Boxes and names/addresses with Non-Roman Characters with accents such as grave, tilde or colon [are not supported](#) by US export compliance systems." Below this, there are four input fields: "First Name*", "Last Name*", "Corporate E-mail*", and "Company Name*". The "Company Name*" field has a dropdown menu with "None" selected. A small note below the "Company Name*" field says "Please enter your company's name, or 'None' if not affiliated." There is a bookmark icon in the bottom right corner.

Below the main content area, there are several input fields: "City*", "State*" (with a note "Please use 2-letter code for your US state or Canadian province."), "Location*" (with a dropdown menu showing "Brazil"), "Zip Code*", "Phone", "Job Function*" (with a dropdown menu showing "Student"), and "Primary Market*" (with a dropdown menu showing "Wireless Communications"). At the bottom, there is a red button labeled "Download". A red box is drawn around the "Download" button.

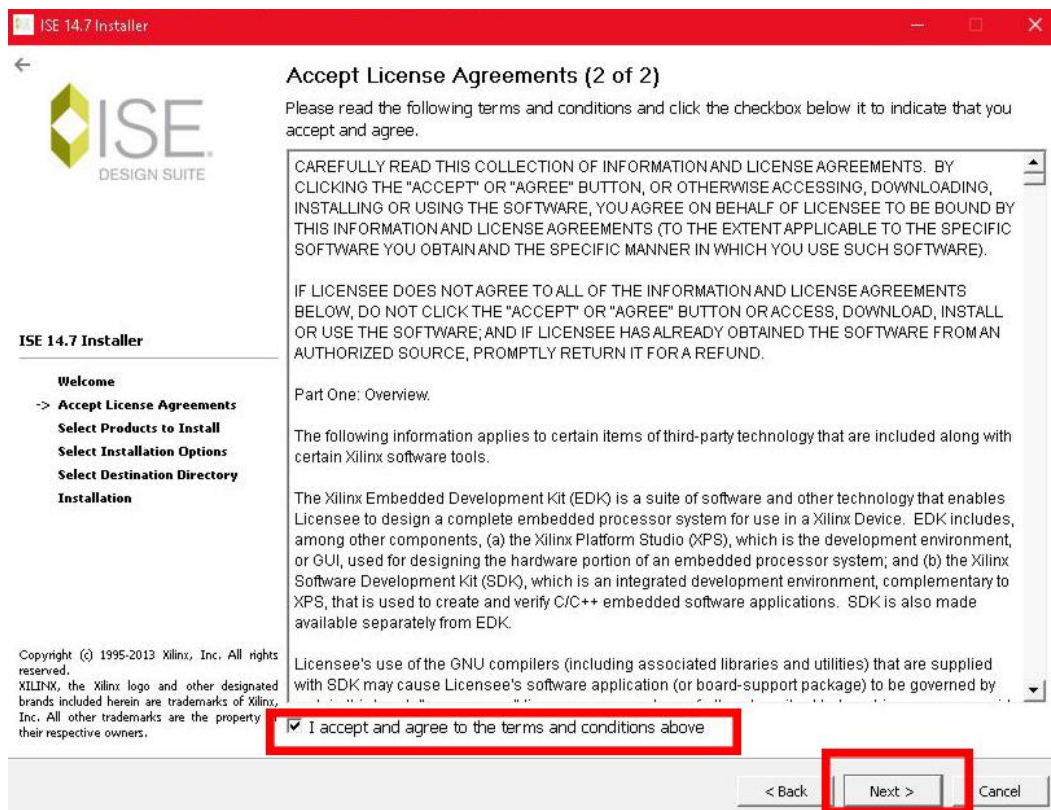

11) Após baixar o ISE, extraia o arquivo baixado e execute o programa xsetup.exe. A tela a seguir deve abrir. Clique em next.

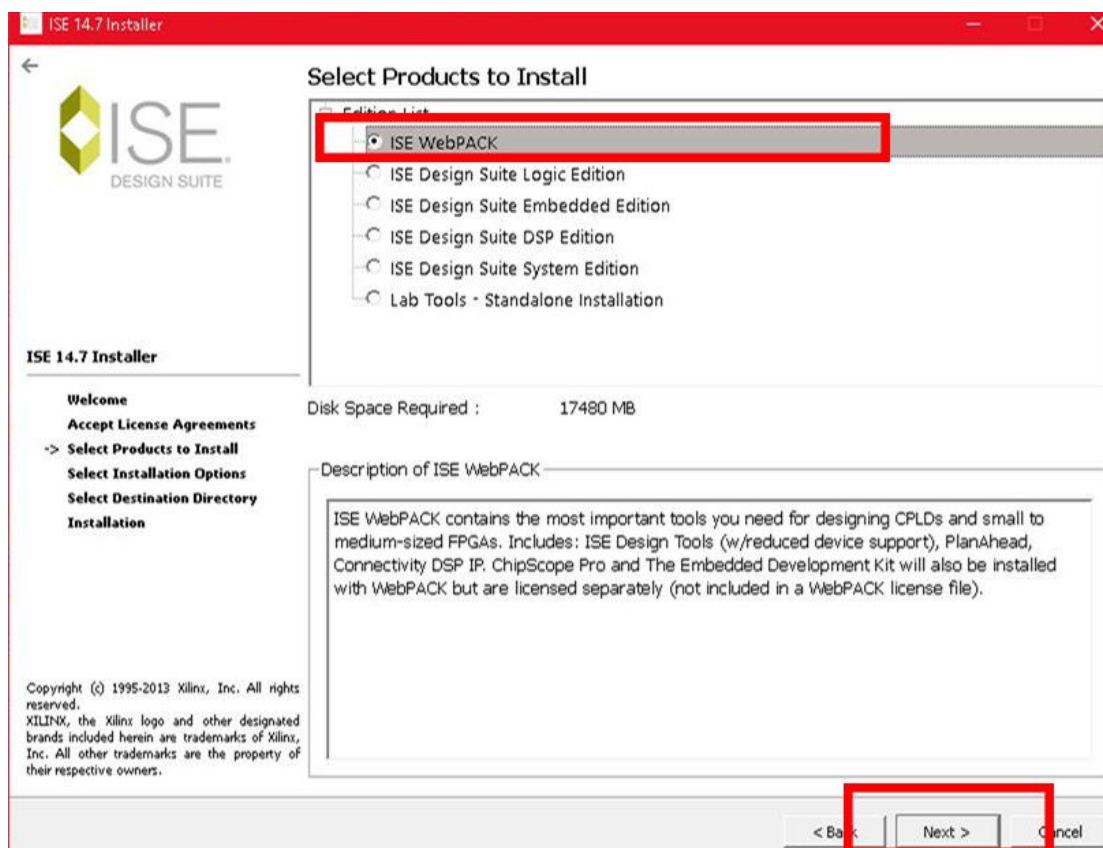

12) Marque os locais mostrados na imagem e, em seguida, clique em next.

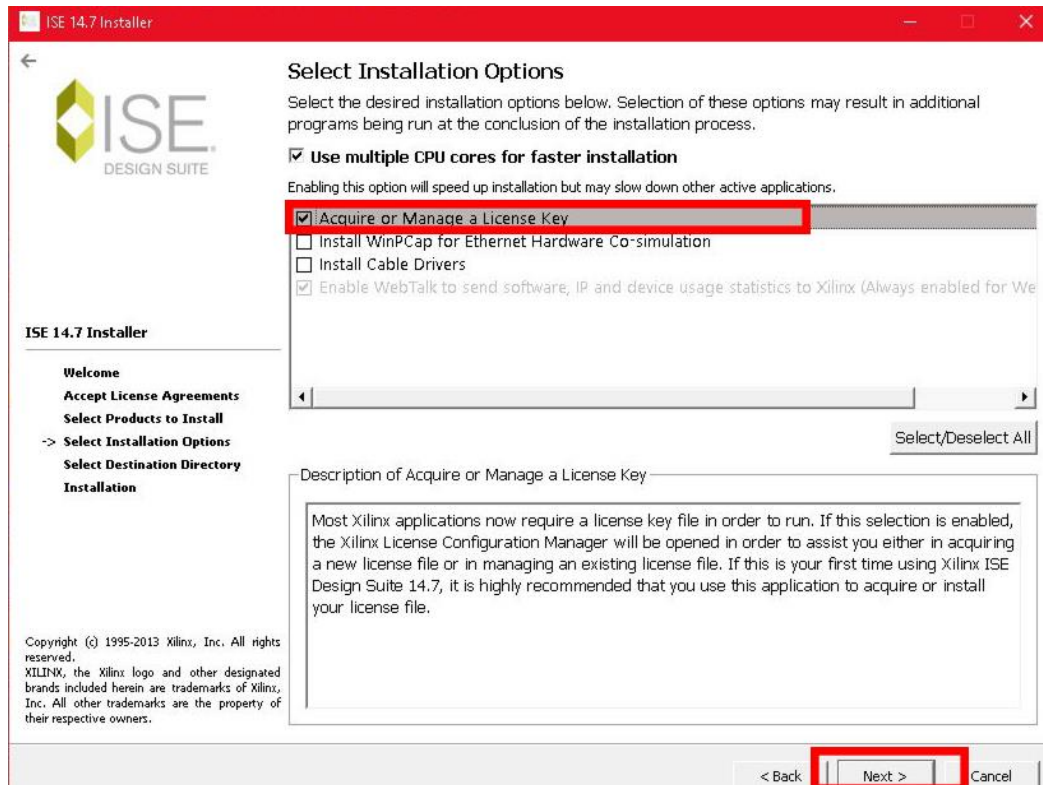

13) Marque o local mostrado na figura e clique em next.

14) Seleccione o Produto ISE WebPACK e clique em next.

15) Marque a opção Acquire or Manage License Key, conforme indicado na figura, e clique em next.

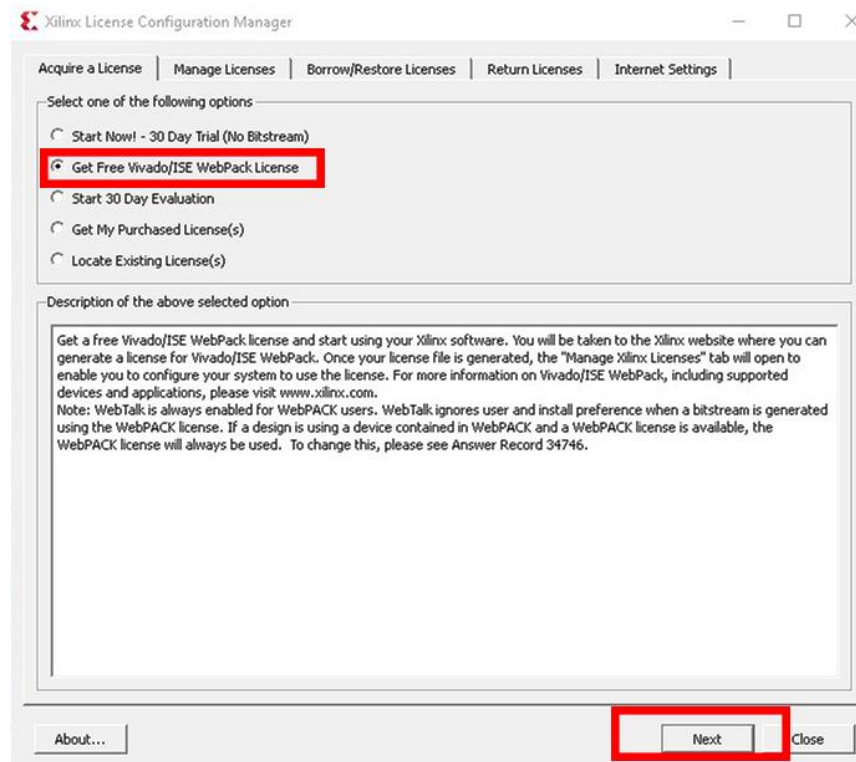

16) Marque as opções mostradas na figura abaixo e clique em next.

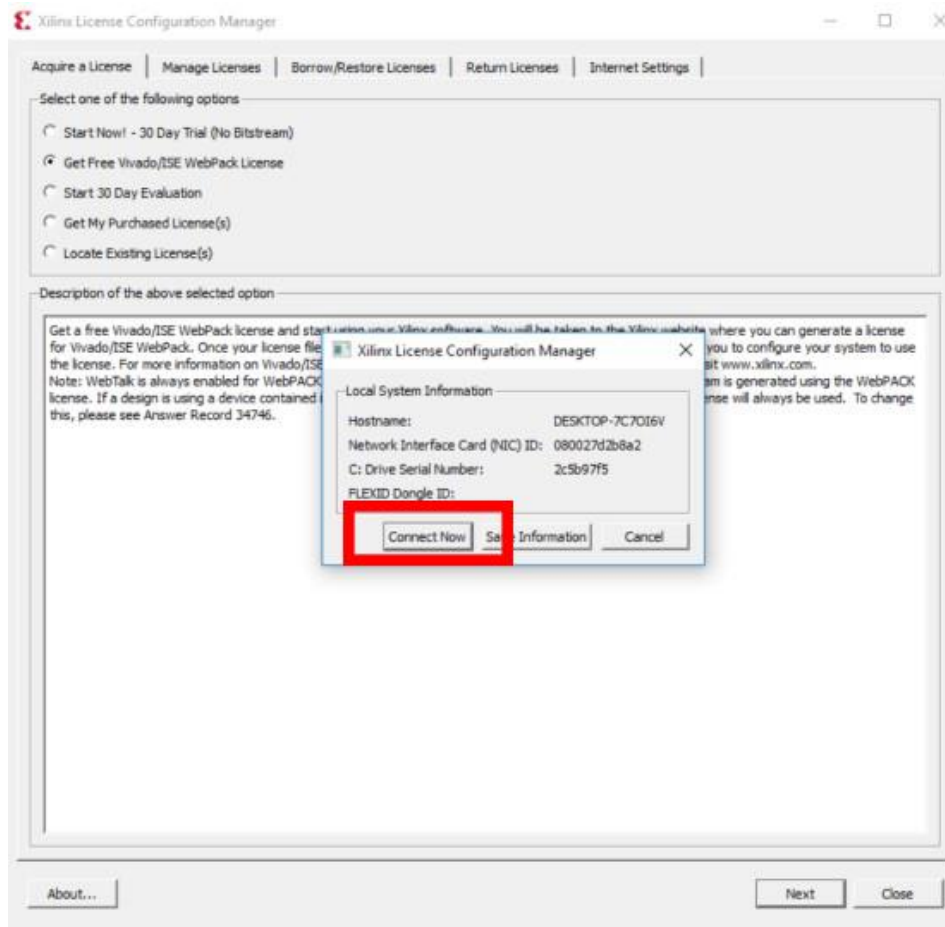

17) Em seguida clique em Install. A instalação pode demorar alguns minutos.

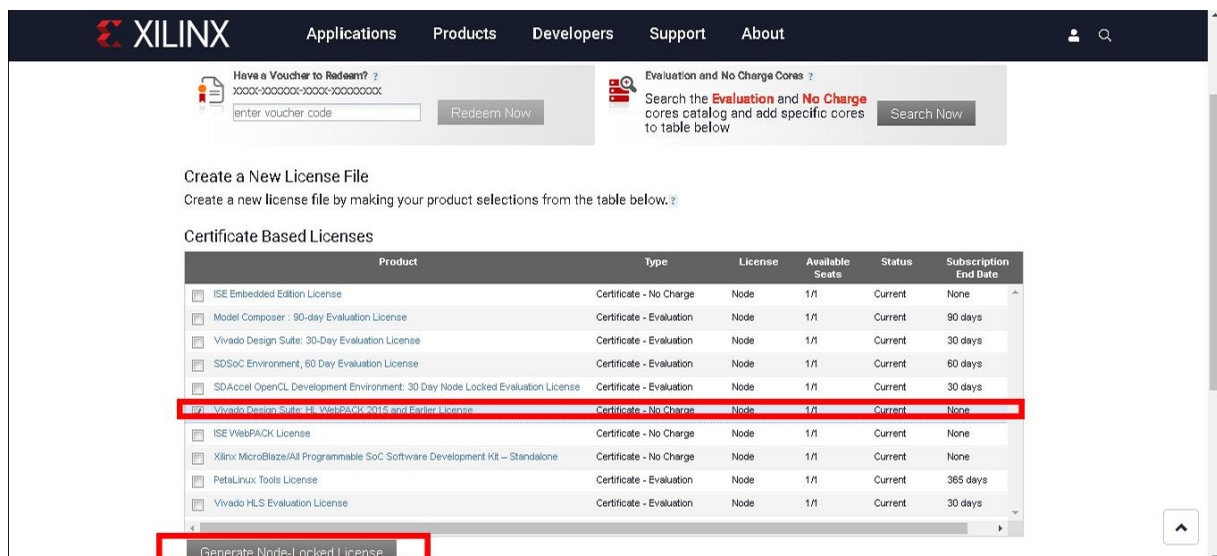

18) A tela a seguir irá abrir. Selecione o local indicado na figura abaixo.

19) Clique em Connect Now. Uma janela no seu navegador será aberta no site da Xilinx.

20) Faça Login no site da Xilinx e, em seguida, a pagina a seguir será aberta. Selecione Vivado Design Suite HL WebPACK 2015 and Earlier License e, após isso, Generate Node-Locked License, conforme a figura a seguir.

21) Clique em next.

The screenshot shows the Xilinx website's license request interface. The top navigation bar includes 'Applications', 'Products', 'Developers', 'Support', and 'About'. On the left, a sidebar lists various licenses, with 'Vivado Design Suite: HL WebPACK License' selected. The main content area is titled '2 SYSTEM INFORMATION'. It contains a 'License' dropdown set to 'Node' and a 'Host ID' field with the value 'Any'. Below this is a '3 COMMENTS' section with a text input field. At the bottom, there are 'Next' and 'Cancel' buttons, with the 'Next' button highlighted by a red rectangle.

Product	Type	Available Seats	Subscription End Date	Requested Seats	Borrowed Seats
Vivado Design Suite: ...	No Charge	1/1	None	1	

License: Node
Host ID: Any

Comments:

Next Cancel

22) Clique em next novamente.

The screenshot shows the '4 REVIEW LICENSE REQUEST' step of the Xilinx license request process. The top navigation bar is the same. The left sidebar now shows 'Vivado Design Suite: HL WebPACK License' selected. The main content area displays the 'Product Selections' table, which now shows 'Vivado Design Suite: HL WebPACK 2015 and Earlier Lic...' with 'Available Seats' as '1/1' and 'Requested Seats' as '1'. Below this is the 'System Information' section with 'License' set to 'Node' and 'Host ID' set to 'ANY'. A note at the bottom states: 'Note: WebTalk is always enabled for WebPACK users. WebTalk ignores user and install preference when a bitstream is generated using the WebPACK license. If a design is using a device contained in WebPACK and a WebPACK license is available, the WebPACK license will always be used. To get additional information on WebTalk, go to www.xilinx.com/webtalk.' At the bottom, there are 'Previous', 'Next', and 'Cancel' buttons, with the 'Next' button highlighted by a red rectangle.

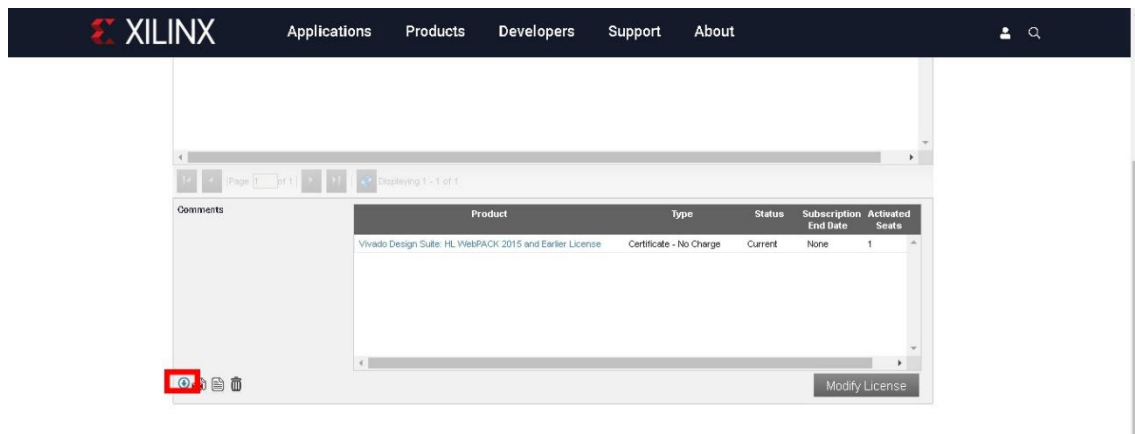

Product	Subscription End Date	Available Seats	Requested Seats
Vivado Design Suite: HL WebPACK 2015 and Earlier Lic...		1/1	1

License: Node
Host ID: ANY

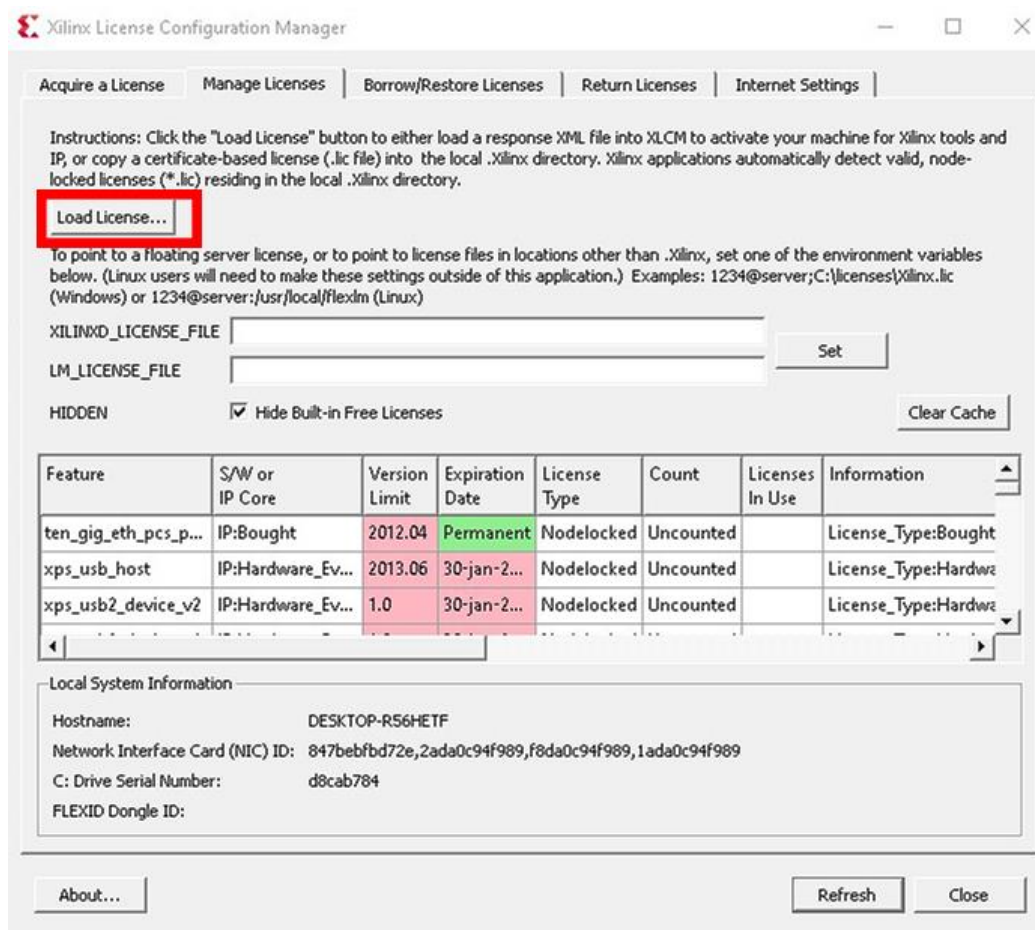

Note: WebTalk is always enabled for WebPACK users. WebTalk ignores user and install preference when a bitstream is generated using the WebPACK license. If a design is using a device contained in WebPACK and a WebPACK license is available, the WebPACK license will always be used. To get additional information on WebTalk, go to www.xilinx.com/webtalk.

Previous Next Cancel

23) Em seguida, clique no ícone de download conforme indicado na figura. O download de sua licença será realizado.

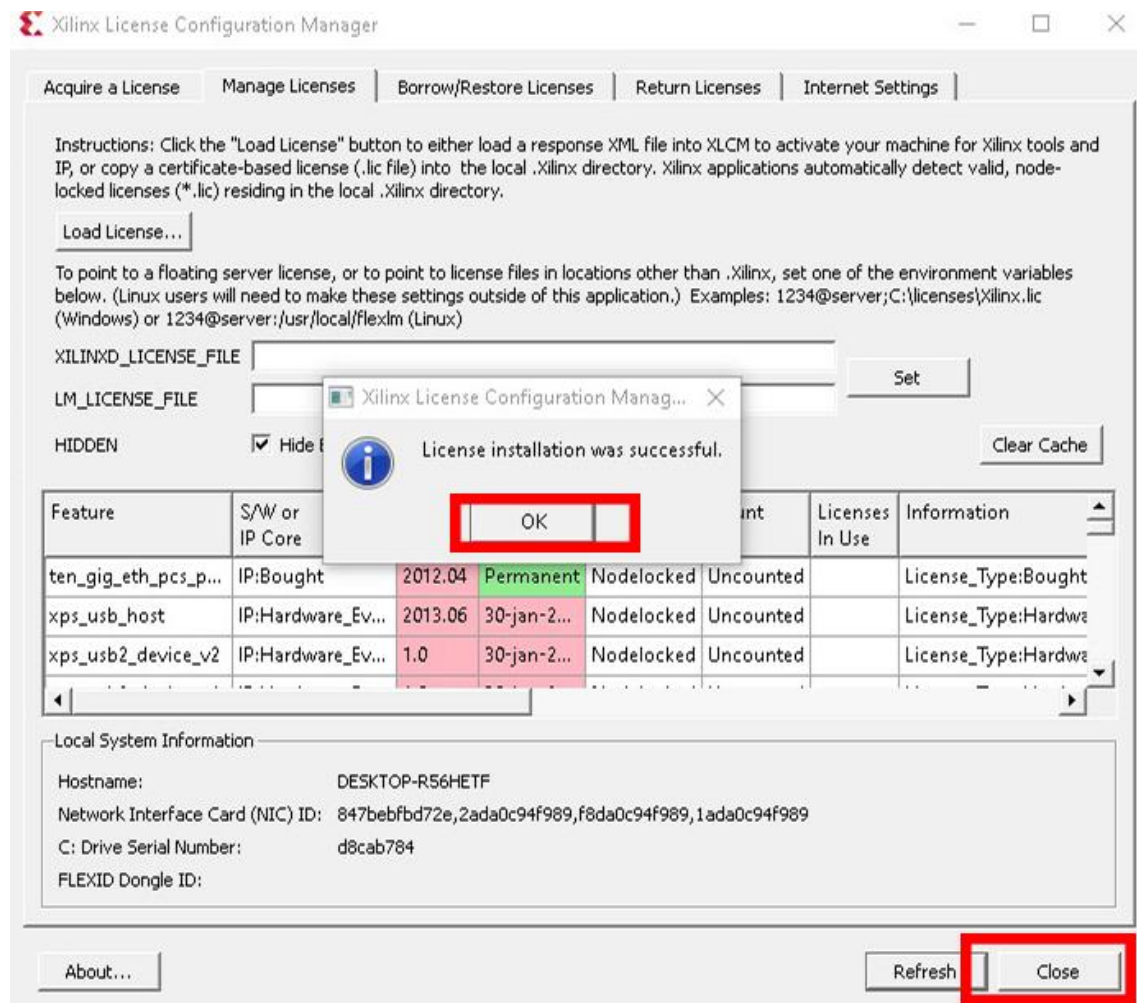

24) Clique em Load License e procure por sua licença baixada.

Obs: Caso essa janela feche, impedindo de adicionar a licença ao ISE, siga os passos do vídeo a seguir:

<https://www.youtube.com/watch?v=ttPbEcNjdo8>

25) Clique em OK e, em seguida, Close, conforme mostrado na figura. A partir desse momento, seu ISE Design Suite estará licenciado para uso.

26) Como baixamos o ISE para Windows 7, precisamos modificar alguns arquivos para que ele funcione no Windows 10. Abra o local de instalação do ISE. (Caso não tenha modificado o local de instalação, vá em Meu computador, em seguida Disco Local C:, e abra a pasta com o nome Xilinx).

NOTA: No site da Xilinx há uma versão para download para o ISE no Windows 10, porém ele só funciona em computadores que possuem Virtual Machine com Linux, além de que o tamanho de download é de aproximadamente 15.5 gb. Por isso optamos pelo download da versão para Windows 7, mesmo usando Windows 10.

27) Já no diretório de instalação do ISE, abra as seguintes pastas:

I) 14.7 -> ISE_DS -> common -> lib -> nt64

Em seguida procure pelo arquivo libPortability.dll , ao localizá-lo, altere o nome desse arquivo para libPortability.dll.orig

28) Retorne a pasta Xilinx (como foi feito no passo 26), e abra as seguintes pastas:

II) 14.7 -> ISE_DS -> ISE -> lib -> nt64

Procure pelo arquivo libPortability.dll e altere seu nome para libPortability.dll.orig.

Em seguida, procure pelo arquivo libPortabilityNOSH.dll, copie o mesmo e cole na pasta em que está acessando. Altere o nome do arquivo copiado para libPortability.dll

Ainda nessa pasta, copie o arquivo libPortability.dll (o que acabamos de renomear) e siga a próxima instrução para colar esse arquivo na pasta solicitada.

29) Tendo copiado o arquivo libPortability.dll (conforme descrito no final do passo 28), retorne para a pasta Xilinx (como feito no passo 26) e abra as seguintes pastas:

III) 14.7 -> ISE_DS -> common -> lib -> nt64

Cole o arquivo libPoratbility.dll, que foi copiado no passo 28, na pasta em que estamos. Pronto!!! Agora nosso ISE Design Suite está operando em Windows 10.

30) Abra o programa ISE Design Suite(que está na sua área de trabalho).

NOTA: Caso o ISE não apareça na sua área de trabalho, entre na pasta Xilinx (como feito no passo 26) e abra as seguintes pastas:

IV) 14.7 -> ISE_DS -> ISE -> bin -> nt64

Procure pelo arquivo ise.exe e copie e cole na área de trabalho para facilitar o acesso.

31) Caso tenha seguido corretamente todos os passos até aqui, o programa funcionará corretamente, conforme indicado na figura abaixo.
